Optimisation

Single Stage (On / Off)

High / Low (warm air only)

Fully Modulating

“Taylor” made solutions from the company with the know - how

Overview

The SmartCom3, is an intelligent energy management controller, which complements higher efficiency heating systems. Simple to program and operate, the SmartCom3 provides cost-effective energy management for small single heater installations through to large multi-zone applications requiring centralised control.

Applications

- Radiant heaters
- Freeblowing warm air heaters
- Single heaters
- Ducted warm air heaters

Specification

- 7 Day Time & Temperature control
- Password Protected
- Simple to use controls
- Optimised Start
- Frost Protection
- Remote sensor option available
- Door switch option(s) available
- Up to three on and off settings per day
